

## COURSE PRESENTATION

Extreme atrophy of the upper jaw has always been an obstacle for implant-prosthetic rehabilitations, but the advent of zygomatic implants has opened new horizons for the solution of these complex cases while taking into account the surgical difficulties, intraoperative risks and possible complications. For this reason, the technique proposed by Andrea Tedesco is welcomed with great attention, using piezoelectric instrumentation to reduce both the risks and the complications of this sophisticated and attractive surgery. Subsequently, Mr. Luca Innocenti will talk about how to prosthetically deal with these complex cases from the classical approach to modern digital solutions.

After the extensive discussion of the surgical-prosthetic bases, the practical part will take place in the operating room where participants will be able to perform zygomatic implant surgery with the aid of piezoelectric instrumentation first on stereolithographic models and then on human anatomical preparations under the guidance of the speaker. The anatomical preparations will be scanned before the exercise and, after inserting the zygomatic implants, the participants will be able to see their work directly on the CT images.

## ORGANIZING SECRETARY:

**ESACROM Srl** - VIA ZAMBRINI, 6/A  
40026 IMOLA (BO)  
TEL. 0542 643527 - FAX. 0542/482007  
E-MAIL: [esacrom@esacrom.com](mailto:esacrom@esacrom.com)

### COURSE LOCATION:

**A.O.R.N Cardarelli Centro di Biotecnologie**  
Via Antonio Cardarelli, 9, Padiglione X 80131  
Napoli (NA)

### PARTICIPATION FEE:

**488,00€** (VAT included) for only theoretical course of the 18<sup>th</sup> March.

**2000,00€** (VAT included) for both theoretical course of the 18<sup>th</sup> March and Hands-On Cadaver (20<sup>th</sup> March).

The fee include participation, lunch, coffee break and certificate of attendance.

For more information:

Mrs. Martina Botte Phone +39 0542 643527 E-mail

## ONE DAY COURSE HANDS-ON MODELS

For learning and upgrade piezo technique on Zygomatic, Pterygoid, and Nasal implant use

Tutor:

**Dr. Andrea Tedesco**

Naples 2021, March 18<sup>th</sup>

A.O.R.N Cardarelli Centro di Biotecnologie

## PROGRAM OF THE COURSE

Thursday, 18 March

### 9:00 Start of the session

- Basic and graftless solution;
- Lesson: Nasal implants;

### 11:00/11:15 Coffee break

- Lesson: Pterygoid implants;
- Lesson: Zygomatic implants;

### 13:00/14:00 Lunch

- Hands-on models;
- Piezo informations and discussion.

### 17:00 End of the session.

## TUTOR

**Dott. Andrea Tedesco**

Graduated in Dentistry and Dental Prosthetics at the University of Florence, he obtained a specialization in Odontostomatological Surgery at the Maxillofacial Surgery Department of the same University.

Enrolled in the GDC in London, UK, he practices there essentially for surgery with zygomatic implants.

Research Fellow on "Implant-prosthetic treatment of severe atrophy of the jaws with the use of zygomatic implants" at the OU of Oral Surgery directed by Prof. Mario Gabriele of the S. Chiara Hospital, University of Pisa.

Owner of a private dental practice in Florence.
